Severe Weather Outlook Wednesday, June 20, 2018

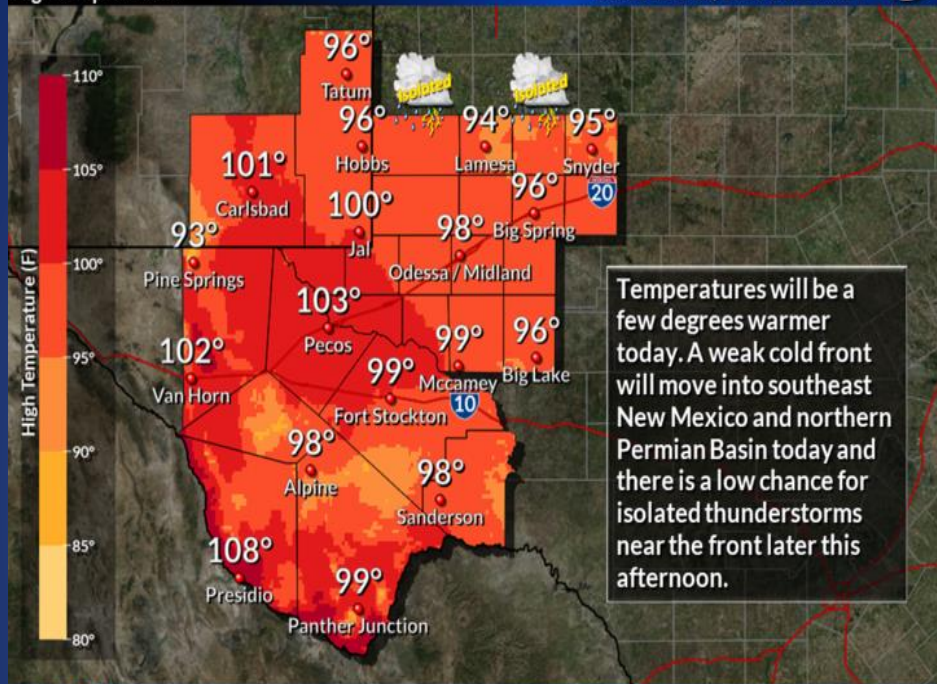

Hazardous Weather

Today

High temperatures

Weather Forecast Office
Midland/Odessa, TX
Issued June 20, 2018 3:22 AM CT

Temperatures will be a few degrees warmer today. A weak cold front will move into southeast New Mexico and northern Permian Basin today and there is a low chance for isolated thunderstorms near the front later this afternoon.

f t NWSMidland

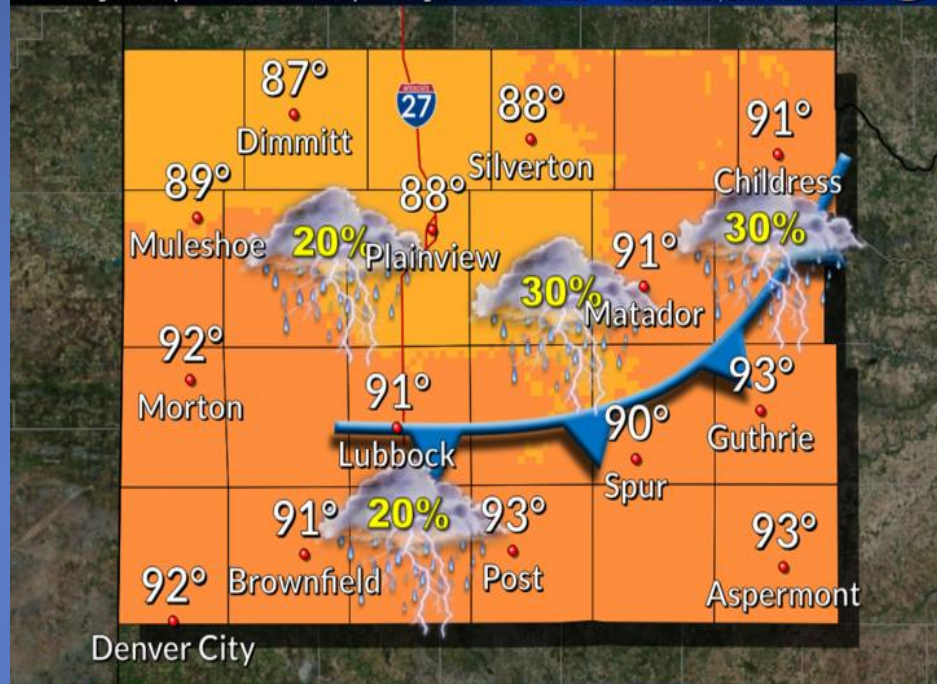

weather.gov/maf

Temperatures will be a few degrees warmer today with highs generally in the upper 90s to 100 in some areas. Isolated thunderstorms will be possible this afternoon near a weak cold front that may approach northern areas today.

Outflow Boundary Passing Southward Today

Minor changes to temperatures - but boundary will bring low thunder chances

Weather Forecast Office
Lubbock, TX
Issued Jun 20, 2018 4:23 AM CDT

f t NWSLubbock

weather.gov/lub

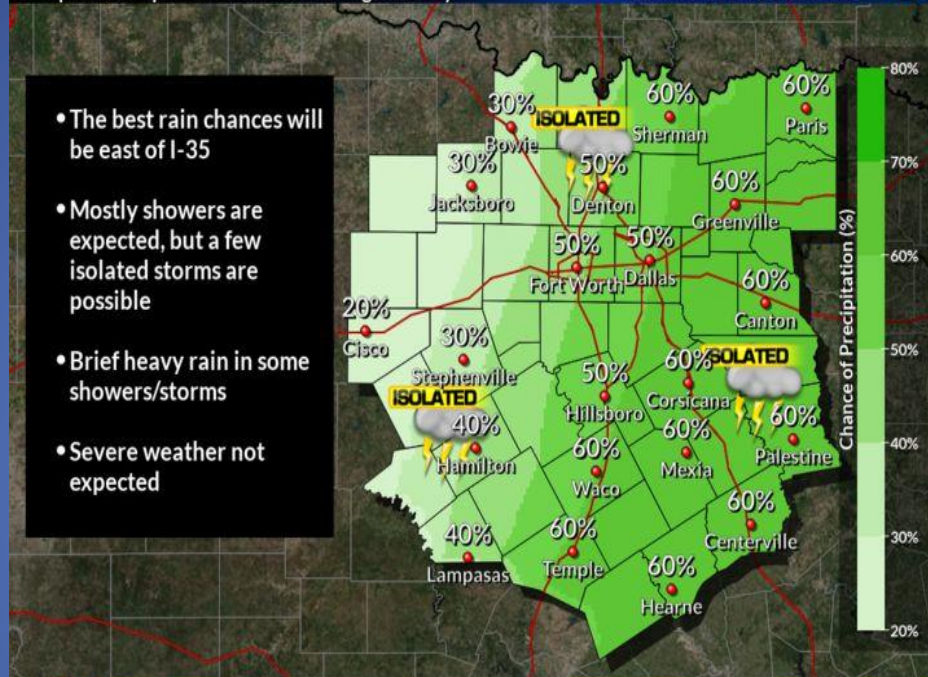

Another warm, muggy day is on the way. A weakening outflow boundary will bring a low chance of thunder to some areas, but probably not much cooling.

Hazardous Weather

Today's Rain Chances

Precipitation Expected to Increase through the Day

Weather Forecast Office
Fort Worth, TX
Issued Jun 20, 2018 4:28 AM CDT

- The best rain chances will be east of I-35
- Mostly showers are expected, but a few isolated storms are possible
- Brief heavy rain in some showers/storms
- Severe weather not expected

NWSFort Worth

weather.gov/fortworth

More opportunities for rain are expected today, with the best rain chances occurring east of the I-35 corridor where the highest moisture levels reside. Mainly showers are expected, but a few isolated storms with brief heavy rain are possible. High temperatures will range from the lower to mid 80s in the east to the lower to mid 90s in the west.
